## **ABSTRACT**

Homemaker's Kitchen is an application which will help homemakers to earn from their daily routine cooking. Homemaker can cook food according to the customers need. Customer can order their food as advance that is customer can book for a meal for any number of people. Customer will provide the list of foods and number of people. Homemakers can block the date they are not interested to work on in the profile calendar. The delivery team picks up the food from homemaker's home. The delivery team is provided with a map leading to the customer and the customers can view their order status and arrival of time. This application helps the homemakers to reduce the difficulty to deliver the food for their customer. They can earn from their house itself and don't need to rely on the restaurant or bakery owners for earning money by the sale of small food item. People who busy to cook homemade food and who don't know to cook, if they wishing to eat homemade food for an event or get together this application will help them to book the food items. The food item will reach their home.
